<i># correct</i>			

1. Watch eight pool shots. Then make your best estimate in the table to the left. Which part of the cushion will the ball hit? A, B, or C? Your teacher might play the video again for you if you ask really nicely.

Name: \_\_\_\_\_

2. Look at the two real and fake pool shots.

If you didn't already know which pool shots were real and fake, how could you tell the difference?

Name: \_\_\_\_\_

Use what you now know about pool shots to calculate the part of the cushion the ball will hit. Write those answers in the "Calculate" column.
